ABOUT THE EXCURSION

Swim in the Caribbean Sea on this incredible snorkel experience. This excursion will show you why Grand Turk is one of the world's top destinations.

You're headed to the 7,000-foot Wall -- the third-largest and deepest barrier reef system in the world.

Snorkel in 20 feet of water as the knowledgeable crew guides you through the reef, identifying the fish and coral formations. When you reach the Wall, you will feel like Jacques Cousteau as you peer into the turquoise abyss and take in the exquisite marine life below you.

Your next stop is at the **shallow coral gardens at Oasis Reef**, where you will spend some time snorkeling the shallow waters.
